EB I-4 TRAFFIC PACING OPERATION SCHEDULED BETWEEN STATE ROAD 557 AND STATE ROAD 429

A traffic pacing operation is scheduled to occur between 1 a.m. and 4 a.m. each night from Monday, May 8, through Thursday, May 11, on eastbound Interstate 4 (I-4) from State Road (S.R.) 557 to S.R. 429. Traffic pacing is a traffic control technique used to slow — but not stop — traffic to facilitate short duration work operations without an extensive detour or diversion. Marked law enforcement vehicles, called pace cars, will slow motorists to about 10 to 12 mph to safely move traffic through the corridor. During the operation, eastbound I-4 entrance ramps will be temporarily blocked at S.R. 557, U.S. 27, and County Road (C.R.) 532 by law enforcement officers to ensure no vehicles jump ahead of the traffic pacing operation. As the pace car passes an interchange, the eastbound entrance ramp will be reopened to allow motorists to enter I-4 and join the slow roll. The traffic pacing operation and temporary ramp closures of eastbound I-4 entrance ramps create a 45-minute window for crews to move equipment and install overhead signs. Single lane closures on eastbound I-4 from C.R. 532 to S.R. 417 will occur in advance, during and after the traffic pacing operations from 9 p.m. to 5 a.m.

Pacing operation subject to change. Construction progress, roadway conditions and weather may require schedule adjustments. Please check fdot.tips/alertsmap for the most up-to-date information.
